of the game at Lynchburg on Monday afternoon at the Mozart Aacademy, but, owing to several minor details of the apparatus being yet incomplete it will not be put into operation until the Richmond team plays in Petersburg, on May 7th. A full description, however, will be given Monday, Tuesday, and Wednesday under the old system. Ladies will have an opportunity of witnessing the games played away from home, a privilege denied them last season.

Hom, Joseph T. Lawless entertained the Portsmouth team at his residence, on Floyd avenue, yesterday after the game. Light refreshments were served, and some excellent youal and instrumental music was rendered.

Monday the strong team from Washington and Lee will cross bats with the Richmond College Spiders. These teams are undoubtedly the Econesta anateurs in the State, both having defeated every State team they have met yet. ST. LOUIS. April 29.—The race-track at 4:30 this afternoon was filled with a crowd of nearly 19,000 spectators. The preliminary races held the attention of the betting crowd, and the race for the sapremacy of the western horses—Dr. Rice and Simmons—kept the bookmakers so busy that it was decided to postpone it until 4:45 P. M. At that hour both horses lined up for the race, and Snapper Garrison was busy in keeping the horses in position for starting in the great six-furlong race for the western record.

crude oil, and that those who trade in any of the outstanding certificates are taking quite a risk if they think they can make a price that the Standard will have to follow.

The reduction caused another big slump in Exchange prices. May oil opened at \$2.20 and gradually dropped to \$1.97, the later was reported on the local Exchange. At Oil City the trading was also very light, the market declining to \$1.97 on the few transactions made.

The Standard bought all credit balances offered at \$2.25 to-day, and some certificates on the Oil City Exchange as low as \$1.98.

OIL PRICES FURTHER REDUCED. All Certificates Purchased-Standard

Fortifies Itself Strongly. PITTSBURG, PA., April 20.-The Standard Oil Company reduced the purchasing price of credit balances at their agencies to \$2.25 this morning. This is 15 cents less than it paid yesterday, and 35 cents less than the price on Thursday.

This still further demonstrates the fact that the monopoly will fix the price of crude oil, and that those who trade in

ing the horses in position for starting in the great six-furlong race for the western record.

The horses were brought to the post at 4:50 P. M. After three unsuccessful efforts to get away they were started even, and for the first quarter Dr. Rice led nearly two lengths. Sloan began to ply whip and spur, and at the half both horses rounded from the chute neck and neck.

Into the stretch it was anybody's race, but it was noticed that Dr. Rice seemed to faiter. When the five-eight pole was reached it was evident that the battle for fame and money was to be eagerly contested. Under the influence of whip and spur both horses came furiously down the stretch, with strides covering eighteen feet at a time.

In the stretch Dr. Rice was seen to weaken again and swerve. Penny plied his whip with mercilers force, but the animal was unequal to the task, and Simmons, under the masteriy guidance of Sloan, who sat like a stick in the saddle, increased the distance. NEW YORK STOCK MARKET. NEW YORK, April 29.-The room-traders endeavored to bring about a reaction in the stock market at the open-ing this morning, and in the absence of upporting orders they succeeded

supporting orders they succeeded in torcing prices down 14 to 74 per cent. The amount of long stock which came out, however, was disappointingly small, and before the expiration of the first hour and before the expiration of the first hour and before the expiration of the first hour and the stock of the of business, the early sellers turned bears. The result was that a number of the leading issues touched the best figures of the week.

A feature was the inquiry for and ad-

Perhaps next week's statement will tell a different story.

"The banks' gain in cash during the week was due to gains from the interior movement, and heavy Treasury disbursements. The gain in deposits and the lecrease in money holdings very nearly balance.

"As a result of the conditions outlined above, the money market has displayed an easiness not noted for several weeks." BALTIMORE STOCK MARKET.

CHICAGO PRODUCE MARKET.

CHICAGO, April 20.—Sixty cents for the space of a moment to-day. The continued rise in value has at length began to disturb the equanimity of those bears who have the credit of heing possessed of a full measure of nerve and assurance. It was presumed that yesterday's covering by Pardridge had brought the bulge to a climax, but one of his fellows emulated his example by renewing his short line buying was in progress, matters quieting when it was over. The last ten minutes witnessed a renewal of the excitement that has been present more or less all week, offerings suddenly becoming very scarce, and the demand appearing simultaneously in all parts of the pit. Prices were rushed up until they were within a fraction of 2 cents higher than yesterday advance that has taken place during the past six days the outside has been far from prominent. It has been simply a short scare from beginning to end, with investment buying of only minor importance. Cash wheat was very firm. May wheat opened at from 58% to 58%c. and closed at 50% 200c.—13% 13%c. higher than yesterday.

Corne-The making of business was going on in corn as well as in wheat to-day. Two reasons were assigned for the firmness, one, the strength of whach was derived from the surroundings, and the burst previous. The market lid not show such a neglected appearance as recently on some occasions, the activity reaching the point of liveliness. May corn opened at 65%c., and advanced to 47%c. where it closed 1%c. higher than yesterday. Cash corn was %c. per bushel higher.

Oats showed a perfect willingness to take part in the popular movement of prices. Whilst not appreciating to the full extent of wheat and corn, still enough gain was made to demonstrate that perfect accord with them was present. May oats closed %c. higher than yesterday. Cash corn was still some changing of pork from May linto July CHICAGO PRODUCE MARKET.

of the requirements of the 25 per centrule.

Commenting on the statement, the Financier says: "Money has been flowing to New York in a largely increased volume during the past week. This is always the case during the spring months, and the turning point is not looked for until July, at the earliest. During the first two weeks in April, 1894, the associated banks goined in deposits over \$15.00,000. The banks so far during April this year have actually lost \$132,600 in deposits. The deposit item one year ago stood at \$563,639,100, or nearly \$60,000,000 in excess of the deposits reported for the week just ended.

"The gain in loans during two weeks in April, 1894, the associated banks as a second that fact makes the slight losses reported so fabrils month all the more surprising. Several of the banks have called in heavy loans lately, but the steadily increasing business on the Stock Exchange and the rise in the security market ought to have resulted in a large expansion of the loan account. That has been the history undestimilar conditions. As recorded by the

And no mistake; he's broken the shell ice of winter, and looks as Springy as a new chick from the same source. We have a duplicate of

SPRING CLOTHING, many of them, in fact, and our scale of prices

that Suit in our stock of

makes it quite unnecessary to shell out a large sum of money to secure an outfit. Our Spring Overcoats at from \$8 to \$20 and Spring Suits at from \$8 to \$25 are just immense.
